SUPER SALE

MARCH 7, 2025 • HOUSTON, TX

NEW TIME & LOCATION

7 PM / NRG SALES PAVILION

MANAGED BY HI POINT SALES + MARKETING • BROADCASTED ON DVAUCTION.COM

MID-COAST SANTA GERTRUDIS ASSOCIATION
2025 INTERNATIONAL SUPER SALE

MARCH 7, 2025 • 7:00 PM

NRG SALES PAVILION

SALE SCHEDULE

FRIDAY, MARCH 7, 2025

6:30 pm Pre-Sale Social at NRG Sales Pavilion

7:00 pm Sale Starts - NRG Sales Pavilion

AUCTIONEER:

Doak Lambert

RINGMEN:

Jim Banner - Southern Livestock Standard

Ralph Means - Weekly Livestock Reporter

Charlie Wood - Gulf Coast Cattleman

HOTEL ACCOMMODATIONS:

InterContinental Houston - 713.422.2779

6750 Main St, Houston, TX 77030

CATTLE TRANSPORTATION & LOAD OUT:

This is an all video sale. Some cattle will be on the grounds at the Houston Livestock Show, but all delivery will be done after the sale between buyer and seller.

HEALTH PAPERS:

Health papers will be provided on each lot in the sale suitable for interstate shipment.

SIGHT UNSEEN PURCHASE OPTION:

If you are unable to attend the auction in person or watch DVAuction.com, simply contact Garrett Thomas:

- Describe your selection criteria and the type of bull(s) and/or female(s) you wish to purchase and your price range.
- You pay only the bid price, just as if you were bidding in person.
- We will call after the sale to confirm your purchase and you can confirm your payment method and arrange shipping.

GENETIC EVALUATION STATEMENT

Santa Gertrudis Breeders International's genetic evaluation is one of the most comprehensive among the Bos indicus influenced breeds, ensuring profitable genetics can be selected for your operation. Over the past 8-year period, Santa Gertrudis breeders have increased selection pressure on traits that have a positive influence on profitability. Profit starts with a live calf and increases when industry end-point targets are hit. Regardless of your marketing strategy, selling by the pound at weaning, retaining ownership and grid-marketing, establishing a consumer direct market, or taking advantage of the replacement female market, Santa Gertrudis genetics ensure that herd goals can be reached. SANTA GERTRUDIS are DATA DRIVEN and PROFIT PROVEN.

SGBI EXPECTED PROGENY DIFFERENCES

Expected Progeny Differences, EPDs, are the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the SGBI database. EPDs are expressed in units of measure (plus or minus) for each trait being evaluated and are calculated utilizing pedigree and performance information. SGBI is a leader in the adoption and implementation of cutting-edge genetic technology. In 2013, SGBI released the first genomic-enhanced expected progeny differences (DNA verified) for Bos indicus-influenced cattle. The inclusion of DNA into the breed's EPD calculations (GE-EPDs) has resulted in information that is more accurate and predictable than a pedigree and performance prediction alone. Currently, the association has access to more than 12,000 performance verifying DNA samples. In addition, to being the first Bos indicus-influenced breed to offer GE-EPDs, SGBI was the first beef breed to implement single-step methodology for the incorporation of genetic information into the genetic evaluation. This approach maximizes use of data reported on all animals throughout the pedigree and greatly improves the EPD accuracy.

SGBI INDICES

SGBI offers three selection indices for cattleman use. Indices are multi-trait selection tools designed to assist cattle producers by adding simplicity to genetic selection decisions. Indices provide an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and the calves were exposed to the same environment. SGBI's indices provide performance insight to 3 beef production business models. The results are reported as a percentile ranking for each index.

BALANCED INDEX:

This index assumes that producers are keeping replacement heifers from the bulls they purchase. It further assumes that producers are either 1) marketing carcasses on the grid or 2) that buyers of their feeder calves base pricing on feedlot and carcass performance. This selection tool is designed to assist cattlemen who retain ownership through the feeding phase or market their calf crop to buyers focused on feedlot performance and/or carcass quality.

COW/CALF INDEX:

This index assumes that producers are keeping replacement heifers from the bulls they purchase. However, it assumes all calves are marketed at weaning or soon thereafter. It further assumes that feeder calf buyers don't base decisions on feedlot or carcass performance, making these traits less relevant to profitability. Producers marketing their calf crop at weaning, by the pound, would utilize this index when making animal selection decisions.

TERMINAL INDEX:

This index assumes that producers are not keeping replacement heifers from the bulls they purchase. It assumes that producers are marketing carcasses on the grid, making carcass traits relevant to their business. This index fits operations using Santa Gertrudis bulls as terminal sires and retaining ownership of their calf crop through the feeding phase.

TERMS & CONDITIONS

BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5.00 per day will be assessed until pickup, unless AMS arranges shipment.

CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

HEALTH

Health papers suitable for interstate shipment will be furnished on all animals.

ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

BREEDING GUARANTEE

1. All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.
2. Any bull which settles cows by natural service and passes a fertility test made by competent veterinarians, mutually agreed upon by the buyer and seller, during any six month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder. All partial interest bulls are guaranteed to produce freezeable quality semen.
3. Safe in calf females have been examined by competent personnel and are so guaranteed.
4. Exposed females have been exposed but are not guaranteed to be safe in calf.
5. Open females have not been served and are so guaranteed.

PREGNANCY DETERMINATION

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

OPTIONS & PRIVILEGES OF RETURN OR ADJUSTMENT

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the seller if in good condition and complying with the health requirements of Texas. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.
3. If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

RIGHTS & OBLIGATIONS

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. American Marketing Service or any other person connected with the management of the sale assumes no liability, legal or otherwise.

LOT 1

KING RANCH®

**PICK OF REGISTERED 3 YR OLD STAR 5
RECIPIENTS BRED TO YOUR CHOICE OF EMBRYOS
CONSIGNED BY: KING RANCH**

1 lot of 5 head. Registered 3 year old Star 5 recipients bred to your choice of embryos. Pick from 329 embryos (231 NS; 98 RS F) that include 53 matings from 6 sires and 28 donors. Donors include the dam of the 2021 \$45,000 "Pick", KR Kings Amigo. Bred recipients to be picked up in Bryan/College Station in January 2026 after a 45d pregnancy check. Pedigrees include some of the most famous cattle in the Santa Gertrudis breed. More information and photographs on several of the donor cows can be found in Lot #2. Progeny EPD's on 10 of the 53 possible matings are listed below:

Sire	Dam	WW	YW	Milk	HP	BB	CW	REA	Marb	Fat	Balanced	Cow Calf	Terminal

11 Traits in the top 25%. Outcrossed pedigree includes Waukaru and J.D. Hudgins genetics.

9 Traits in the top 25%. Chosen One son out of KR 451/12, a donor available in lot #2.

9 Traits in the top 25%. Trait leader in Marb, Balanced, Cow/Calf and Terminal. Pedigree includes KR Ricardo, KR 97/10, Top Gun, Bond 007, All Star, and KR 1131/13.

- Sire KR 1117/20 has 9 traits in the top 25% and is a proven sire trait leader in marbling and all three indexes. Pedigree includes breed changing sires like KR Ricardo 182/02, KR 97/10, Top Gun, Bond 007, Wendt All Star 5876, and KR 1131/13.
- Sire KR 706/22 has 11 Traits in the top 25%. 8 traits are in the top 10. These outcross genetics are carrying Waukaru and J.D. Hudgins genetics.
- Sire KR 650/21, a KR Chosen One son, has 9 Traits in the top 25%. 4 traits are in the top 10. This bull's 13 year old dam, KR 451/12, has weaned 11 calves since 2014. This dam is available in Lot #2.
- 14 of the donor cows have 7 or more traits in the top 25%.
- Take comfort in the numbers. The progeny from this set of donor cows have a combined total of 41 individual carcass records, 27 bull calves were selected to complete a gain test, and 31 replacement heifers have been retained and are at work in the herds at King Ranch.
- Also included are matings from the dam to KR Kings Amigo, the \$45,000 "Pick" purchased at the 2021 Mid-Coast International Sale.
- KR 451/12 is dam to AI sire KR 650/21 and donor dam KR 311/17 in Lot # 2
- Natural service sire KR13/21 is a proven Sire trait leader for WW, Balanced, Cow/Calf, and the Terminal Index.
- The King Ranch raised bulls used to AI these cows are all in the top 5% in the Balanced and Cow/Calf Indexes and top 15% in the Terminal Index.

For a complete list of embryos, EPD's, or photos, please contact Virginia Silguero at Vsilguero@king-ranch.com. Select 15 embryos and take home 5 bred recipis of your choosing. Transfers to be completed by TransOva.

KING RANCH®

LOT 2

PICK OF BRED PROVEN DONORS

CONSIGNED BY: KING RANCH

Pick 1 head out of 12 Profit Proven® females. These 4 to 13 year old cows have never pregnancy tested open and have an average calving interval of 385 days. Each cow has produced replacement females and/or herd bulls that are currently at work on King Ranch today. AI'd on 1/3/2025 by TransOva to KR 650/21, KR 706/21, KR 1117/20, and QVF Jackpot 5369G8. See Lot #1 for more information on KR AI sires. Natural service to KR 13/21 from Jan 22, 2025 – Mar 1, 2025. Selling as "exposed". To be picked up from the ranch on or before Apr 1, 2025.

Natural service bull. Trait leader in WW, Balanced, Cow/Calf, and Terminal Index. Sired by KR Chosen One and out of a KR Catalyst x KR191/13 dam. Previously sired 28 natural service calves in one 75d breeding season.

- This set of cows was hand-picked by the ranch to aspirate based on their EPD's, confirmation and production history. None of these 12 cows have ever pregnancy-tested open and have produced numerous breeder females and herd bulls at work on King Ranch today.
- All of these cows rank in the top 25% for the Balanced Index and 5 rank in the top 1%
- All of these cows rank in the top 25% for the Cow/Calf Index and 3 rank in the top 1%
- 9 cows rank in the top 25% for the Terminal Index and 5 rank in the top 10%
- 5 cows have at least 10 traits that rank at least the top 25% or higher
- 7 cows have at least 5 traits that rank in the top 10% or higher
- KR 118/21 has all 12 traits in the top 25%
- KR 451/12 is dam to AI sire KR 650/21 and donor dam KR 311/17 in Lot # 2
- Natural service sire KR13/21 is a proven Sire trait leader for WW, Balanced, Cow/Calf, and the Terminal Index.
- The King Ranch raised bulls used to AI these cows are all in the top 5% in the Balanced and Cow/Calf Indexes and top 15% in the Terminal Index.

For a complete list of embryos, EPD's, or photos, please contact Virginia Silguero at Vsilguero@king-ranch.com. Select 15 embryos and take home 5 bred recipis of your choosing. Transfers to be completed by TransOva.

- 2023 Grand San Antonio
- 2023 Grand Cattleman's Congress
- 2023 Grand Rodeo Austin
- 2023 Reserve Houston

Wonder has been a staple in the donor pen during her time at B Square Ranch and now the opportunity presents itself to put this iconic matron to work in your Breeding program. Sired by Honey Badger 1202 one of the most dominant bulls in the breed producing quality time and time again. This is truly a once in a lifetime opportunity and we are so excited for the new owners! It goes without saying that the story of BSR Miss Wonder is just the beginning, and we look forward to watching what she accomplishes during the next chapter of her production career.

The bonus of this investment opportunity is BSR Miss Wonder ET is confirmed safe to KK The Valedictorian your 2023 National Champion bull. Due May 2025

Seller Reserves the right to 2 flushes at buyers convenience and sellers expense.

LOT 4

7077J6 natural polled her dam is the Great RDF Melania 7077, she's on the top 15% on 8 traits including top 3% on Marbling and HCW. This cow can get into the donor program easy. She's easy fleshed and a easy keeper.

LOT 5

This large framed polled female excelled in the show ring winning several championships, she was Hi Point Female in Mississippi 2 years. She has a great disposition, is long body, beautiful fronted and her pedigree combines Vegas and 357 Magnum. She raised a heavy bull calf and is bred back with her second calf (5.5 months at sale time) to HCF K100. An awesome bull with an excellent EPD panel.

Red Doc 3432 is a bred heifer out of high performance dam Red Doc 0209. She is AI's to Red Doc Fuego 1032, 20210059, and cleaned up with Red Doc 3008, 20230022. She is due to calve early May.

LOT 8

CTF 2311 is Sired by the hit Red Doc Fuego the \$160,000 curve bending bull who ranks in the top 3% in birth weight, top 1% of marbling with adjusted IMF of 9.27, and a yield grade of 1.65, has set a new standard for the breed. The easy fleshing efficient genetics tied to the AI sire KK The Valedictorian will combine the ideal eye appeal for the showing with sustainable genetics that will allow CTF 2311 to maintain in your herd. She is AI'd to Buena Vida's KK The Valedictorian on 12/12/24.

LOT 9

CTF 2308 is sired by Red Doc Dinero's Peacock who is solidly in the top 15% of several EPDs including REA, REA/CWT, BW and WW. She is AI'd to Buena Vida's KK The Valedictorian, the 2023 National Champion Bull, on 12/14/2024. Her tremendous performance EPDs that hit on optimal traits like REA, REA/CWT, weaning weight and yearling weight are a great pairing with Valedictorian's show ring appeal.

LOT 12

Talk about a mating made for Houston and the show ring! 453 is a combination of the 2022 International Champion Female and the 2022 and 2023 Houston International Champion bull. Her pedigree combines XL's Midas 355, Red Doc Never Sank 5012, and 777 Honey Badger 1202 in a seamless package. 453 is elegant in her lines, moderate, high volume end to end, and feminine fronted. If you're looking for a show heifer that can find her way to the donor pen don't miss 453.

LOT 14

This heifer is the epitome of the direction we are heading at Wendt Ranches, combining performance and phenotype, and she is super hard to let go of. She has a striking phenotype with plenty of depth & power all in a deep cherry red color. EPD wise, we don't know of a better set in the entire breed! TOP 1% in 5 traits, WW, YW, TM, CW and REA! 10 traits in the top 30%, including Marb-Top 4%, Milk-Top 10% and SC, HP, BB all in Top 30%. Indexes of 1/1/1.

This is the first ever public offering of a Margarita offspring that we purchased from Red Doc for \$40,000. She has the look to succeed in the show ring and the EPD profile to improve any operation. A donor pen is where she belongs and a lasting impact on the breed is in her future! Scan data will be available before sale day.

Wendt Ranches retains the option to flush her once resulting in at least 6 transferable embryos at sellers expense and buyers convenience. If she sells for more than \$20K, Wendt Ranches waves flush option.

Introducing Crosswinds Sure Nough, the heifer that's "Sure Nough" to make you a champion! A spring born polled heifer .

- Sire: A legacy of champions since 2018.
- Dam: A powerhouse combination of Liberty Ranch's ET Scarlet and Red Doc, paired with KK Rico Suave ET.

Her elite genetic makeup is as rare as her winning potential. Crosswinds Sure Nough isn't just a heifer – she's a one-of-a-kind investment that can take your program to the next level. Take a look at her smooth clean lines, refined neck, spring of rib and the added dimension and depth in her backend . She is a long level sided female that comes with the added substance of bone. She holds her head high as she walks and give off a Sure Nough presence about herself! Don't miss your chance to bring home a heifer bred for greatness. Crosswinds Sure Nough – Where Legacy Meets Opportunity!

PICK OF HERD SIRE

CONSIGNED BY: PASSION FARMS

Passion Farms is excited to unveil an exceptional selection of herd sire prospects, handpicked from the heart of our herd. Featuring our top tier genetics from multiple leading sires including Red Doc Red Carpet 8520, Red Doc ET 0399, and Red Doc ET Todo 9561. This offering is the epitome of excellence, featuring elite pedigrees, remarkable efficiency, and exceptional performance. A perfect addition to any breeding program. Each bull has been gain tested and halter broke, offering not only performance data but also a calm, manageable disposition. Buy in confidence knowing this pick of bulls offers consistent pedigrees proven to profit.

Special Terms :

- Over 20k purchase price, buyer gets to pick bull after all data has been collected (Feed Data and Scanning). Passion Farms assumes all responsibility and cost leading up to this pick. **Estimated time of pick April 2025.
- Under 20k purchase price buyer must pick bull at the completion of Super Sale.
- Passion Farms will retain 50% semen interest for in herd use only.
- Bulls are DNA Tested with Genomically Enhanced EPD's
- All Passion Farm's bulls offered in this Super Sale Pick will be on display at the Houston Livestock Show and Rodeo

LOT 23A

KitKat is a powerhouse heifer with a tremendous top, deep body, and a beautiful, extended neck. She is the current high point best of polled female in the Santa Gertrudis breed and has performed well as a show calf since she won her class at junior nationals in Gonzales. She is a full brother to 777 Kash, the 2024 International Champion bull in Houston. Her dam, 777 Kitty, also had quite the show career and may be the top donor currently at 777 Farms. She is sired by Townsend Neverside (Bruno). Don't let the opportunity to flush one of the most powerful, polled cows the breed has ever seen. We can't wait to add this donor to the line up and see what she can produce!!!

FULL BROTHER TO 23A 777 KASH

LOT 23B

Candy, a full sister to 2025 National Champion Bull, 777 Candyman, has made her mark on the show road. Her dam is the infamous donor Harris Farms 17/0, Arkansas, who is also the dam to 777 Vegas. Her sire, Honey Badger, is the ever-popular sire of many show champions the last few years. This mating is the definition of being "Bred in the Purple" and proving that statement by being named the 2025 National Champion Senior Female at the Dixie National. Candy's calf on her side, Miss 777 Hot Tamolly, proves that her calves will have the look we are all after and has cemented Candy's place as a donor cow at 777 Farms. Don't miss this opportunity to make your bull famous!!

**5TH OVERALL CHAMPION AMERICAN
2025 CATTLEMEN'S CONGRESS**

What can you say about this opportunity... Cambria has done it all and is currently the SGBI High-Point Female. She's taken Supreme Championship spots at Rodeo Austin and Cattlemen's Congress as well as Grand Champion female at countless shows around the nation. She's a Dreamboat 037E3 daughter out of 3X SGBI Dam Of The Year RAR Miss Abigail 1637 making her a full sister to 2023 National Champion XL's Cleopatra 008 ET. This is your opportunity to flush an incredible female with a proven pedigree to the bull of your choice. Seller guarantees 6 viable embryos using Conventional semen.

FLUSH & EMBRYO LOTS

Miss Grandview G038 "Gucci" was a force to be reckoned during her show career. This Copperhead daughter served as your High Point Female two years in a row as well as being named Reserve National Champion Female two years in a row. She's as sound as they come and is as big centered as you can ask one to be all while packing that into a clean and feminine front end. The breeding opportunity's are endless on this female. Don't miss out on your chance to own your next National Champion Female.

With these mating you have the best of all 3 worlds!

In 2023 we were blessed with the opportunity to purchase the Kubecka 18/21 cow. With her added power, bold spring of rib, combining that into a maternal and feminine look, we feel she is the epitome of a donor female. During the 2023-2024 show season she proved herself in the show ring. Winning Grand Champion Female at the HOT Gert show, Reserve Grand Champion Female at the at the State Fair of Texas and the San Antonio Livestock Show, as well as being the 2024 Open National Champion Sr. Female. We are excited to be offering top-quality sexed female embryos from the legendary XL's Midas 355 bull, and our Kubecka 18/21 cow. Midas has Sired several champions and is consistently producing elite high-quality females. Crossing him with a Dreamboat 037E2 daughter is a mating destined for greatness. This exceptional mating combines superior genetics for outstanding performance, conformation, and growth potential. If you want to produce elite show heifers or future donor females, here's your chance.
